KNOW IT WELL

Familiar Features Well Known to Hundreds of Norway Citizens.

A familiar burden in many a home, The burden of a "bad back."

A lame, a weak or an aching back Often tells you of kidney ills.

Doan's Kidney Pills are for weak kidneys.

Here is good testimony to prove it.

L. E. Monk, mechanic, Pleasant St., South Paris, Me., says: "I suffered nearly every day from a lame back. The kidney secretions were unnatural and I knew that my kidneys needed attention. Some one told me to try Doan's Kidney Pills and I got a box. They did me a great deal of good and two or three boxes made me well."

Three years later, Mr. Monk said: "My kidneys have remained sound and healthy since I used Doan's Kidney Pills."

LOVELL. Everett Cushman while sliding on Smarts Hill broke his leg below the knee. H. L. Croft M. D., attended him and set the bone. He is as comfortable as could be expected.

F. L. Wells has been at his home with a bad cold. Mr. Wells tends the grain mill for N. T. Fox.

New Year ball at Wiley's Hall, Saturday evening was well attended.

Saturday, January 8th comes the joint installation of the Old Fellows and Rebekahs at their hall. A good time is expected. D. D. G. M., J. Bennett Pike and suit of Bridgton will install the officers of Kezar Valley Lodge and D. D. P. Mrs. Esther Kimball and suit of Lovell the Rebekah officers. A fine banquet will be served. To be public to all Fellows and families and Rebekahs and families in town.

See notice of True, Walker and Heald in this paper and govern yourselves accordingly.

We have enough snow now so they can get out of timber cut in this town this winter.

The following officers were elected by Kezar Valley Lodge, I. O. O. F., Saturday evening:

No. 168—H. C. McKee. Sec. Sec.—Frank Starnes. Fin. Sec.—M. A. LeBaron. Trustees—J. W. Brown, W. S. Fox and W. B. Hurd.

Janitor—H. G. King.

True, Walker and Heald announce that all accounts prior to January 1, 1916 must be settled before April 1st, 1916. A notice appears in another column. Better call and fix up the old account.

BETHEL. The annual meeting of the stockholders of the Bethel Water Company was held in the office of Herrick & Park last Monday. Officers elected were:

Pres.—B. S. Kilborn. Vice Pres.—W. W. Hastings. Clerk and Treas.—E. E. Hastings. Directors—Ceylon Rowe, W. W. Hastings, J. Edwards, Ceylon Rowe and W. W. Hastings. Auditors—Ceylon Rowe and W. W. Hastings.

A dividend of one dollar per share will be paid to stockholders this month.

Middle Intervale. The little snow birds are here making a friendly call at the back door to find grain and crumbs. This world indeed would be a cheerless place should we dispense with these beautiful creatures who know in their sphere beyond the human.

L. C. Stevens is hauling birch to Bethel Hill.

Blanche Kimball went up to the old Tapley Kimball house recently on an errand and did not find the man of the house, who she thought she would sell some pork and butter to, so she cut across the field into the woods where he was getting wood and came out into the road leading to Farwell Hill. She was dazed and turned around and lost her way and was out some time in the woods, not knowing which way to turn. The man she was looking for was on his way to the village. She is now at home but somewhat ill.

Songo Road. Dolly Lapham, Harry Churchill are cutting ice at Songo for Bethel parties.

Robert Clough is cutting ice on the mill pond for J. N. Morrill & Son. Alvin Kimball has cut his ice this week, also some for J. S. Rich and E. H. Young at their cottages.

Haggood Bros. are busy hauling their dry wood to Bethel.

E. R. Bartlett commenced this week hauling pulp timber off the M. F. Lord place at South Albany for Fred Little, field.

Mr. and Mrs. C. F. Upton and Ella Baker attended the all day Grange meeting at Hunt's Corner, Saturday.

Frank Barris of West Bethel Flat is cutting pulp wood for Eben Kilburn here at Songo.

How's This? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHERNEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out all obligations entered by him.

NATIONAL BANK OF COMMERCE, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price 75 cents per bottle. Sold by all druggists. Take Hall's Family Pills for constipation. No. 1958.

OTISFIELD GORE. Roscoe Hill has been quite ill and his sister, Mrs. Arthur Douglass of Bethel has been spending a few days with him. Mr. and Mrs. Richard Tyner of Mechanic Falls were Sunday guests at Willard Brett's.

Will Tucker of Norway has been pressing hay for C. H. Brett and Isaac Pingree.

Sherman Pingree has returned to Lewiston where he is attending Bliss business.

Glady's Rowe of Oxford was a week-end guest of Mrs. Cora Green.

Frederick Robie Grange held a special meeting, Thursday night with a good attendance. Visitors were present from Norway, Otisfield, Oxford, Crooked River and New Gloucester. The following program was given:

Original poem, John Ordway. Reading, Ralph Merrill. Cornet solo, Willard Brett. Tableau, Sanford Annis. Duet, Mr. and Mrs. Willard Brett. Original poem, Mrs. Albert Whitman. Reading, Maggie Pool. Recitation, W. A. Brett and E. Wardwell. Original paper, L. L. Libby. Box. Original quartette, E. B. Francis. Reading, W. A. Brett and E. Wardwell. Tableau, Frank Lock. Recitation, John Ordway. Original quartette, E. B. Francis.

The Grange voted to hold their annual harvest fest and installation at the first regular meeting in January, which will be an all day meeting January 8th.

EAST SWEDEN. Mrs. Minnie Marr has been on the sick list of late.

C. O. Kimball and Raymond Kneeland were in Bridgton Jan. 1.

H. H. Bisbee has bought some pine timber on the "George Bennett place" and his teams are hauling it to the mill.

Will Marr, Earl Marr and Bert Kimball are cutting it.

John Flint and Fred Barton are under the doctor's care.

Edith Wentworth is stopping at Wyman Kimball's.

NORTH FRYEBURG

Surprise Party. Aunt Rebecca Charles was given a surprise party at her home on Tuesday evening, it being her birthday. She is 41 years old and it is hard to find a son or daughter looking woman than she is.

She spent the day with Mrs. Stevens. After supper Mrs. Stevens waited to receive her. She received many pretty gifts and also many Gladys and Phyllis Stevens presented with a birthday cake lighted with candles.

Refreshments were served of different kinds of cake, hot cocoa, popcorn and apples. All spent a pleasant time wishing Mrs. Charles many happy returns of the day they returned to their homes.

School began Monday with Mrs. Benis of South Chatham, teacher.

Mrs. Jennie Mabry has been of the sick list the past week.

Ruth, Drew of Jackson is visiting friends in the place.

Mrs. Kate Libby, who has been pending the past few weeks with Mrs. Alice Charles, has returned to her home in Sweden.

Carroll Bryant and gentleman friend of Conway, spent a few days the past week at P. E. Binford's.

Mrs. Maria Drew is assisting Mrs. Eva Hutchins with her work.

Edwin Hutchins returned home last week after spending several weeks in Canada.

Mrs. Jessie Flint of South Chatham, spent the past week with Mrs. Gertrude Shaw.

The Ministerial show at Red Men's Hall given by the Red Men, R. M. manager, was well attended Wednesday evening, December 29, in spite of the snow storm.

Mrs. Olive Hutchins of Fryeburg visited in the place the past week.

P. Gray of Fryeburg was in the place the past week.

There was no service at the Universalist church, Sunday, December 26 (on account of the rain).

Agnes Chandler visited Mildred Wiswell one day last week.

James Flint and wife are visiting her parents at North Bridgton.

A. Wilson and A. Fred have been sawing wood in the place with their sawing machine, the past week.

Several from here attended the Grange meeting at Fryeburg Center, Saturday.

Louise Pitman is visiting relatives in Auburn.

Zack Chandler is visiting at Waldo Seavey's for a few days.

Herman Merrill and wife of Lovell visited at Jay Chandler's, Saturday.

SWEDEN. There is plenty of snow for logging in this vicinity. Preston Charles is the first one to commence and has been logging for one week.

Perkins and Fessenden have their steam engine set up and will soon be ready to commence operations on what is known as the Gamage farm. They also have several thousands to cut on the Joe Bowley farm.

Our school closed Friday, December 24th for two weeks, taught by Annie Oberg. The teacher had an entertaining at the school house, Friday evening and gave an invitation to all in the neighborhood to attend. Nearly all excepted. The scholars recited their lessons. A nicely which showed that the teacher had taken great pains with all of the scholars.

After the exercises the pretty Christmas laden with presents were distributed to the scholars by the teacher. Each scholar giving their teacher a present in return. Mr. and Mrs. C. G. Briggs furnished the music for the evening from their graphophone.

E. C. Tower and family spent Christmas with their son and wife, Mr. and Mrs. Guy L. Tower.

Mr. Tower and wife invited the neighbors who had children to come and spend the evening with them. When all had arrived the door to the sitting room was opened, where there was a very pretty Christmas tree with a present to all. Cake, candy and fruit were passed around and not sparingly

May All Join in Making the Year 1916 Both Joyous and Prosperous

Upon the New Year's threshold, with Yuletide happiness so fresh in the memory, how clearly we see opportunity for progress and improvement that might at other times pass unnoticed. The time is ripe for directing our steps in paths that lead to safety and profit in financial matters throughout the coming year.

With the Season's Greetings we extend a cordial invitation to become a client of this Institution where the Holiday spirit is maintained throughout the year.

Close, constant co-operation; a continual endeavor to supplement and encourage individual effort toward progress; to place our experience and facilities at every Client's disposal are features of our service, the wide scope of which makes affiliation with this Institution highly desirable for every ambitious member of this community.

A CHECKING ACCOUNT, because of its convenience and safety and as a result of efficient, courteous service, is highly desirable. A check book marks your consequence in the community in which you live.

BOND INVESTMENTS. Our broad experience, excellent facilities and known responsibility enable us to give the most helpful service to clients desiring to select dependable bonds for investment.

EXECUTOR AND TRUSTEE. Under powers conferred by the Federal Reserve Board at Washington, we act as Executor or Trustee. Our splendid facilities, systematic methods, close, continual contact with the investment field and experience in the handling of estates particularly fits us to serve in these capacities. You can rest assured that the provisions of your will must be carried out to the letter, if you name this Bank as your Executor.

OTHER FEATURES OF OUR SERVICE include Certificates of Deposit and Time Deposits for temporarily idle funds, Travelers Cheques which render unnecessary the carrying of money when travelling and Foreign Drafts for use in sending money to any foreign city or town. Every effort is made to meet the many requirements of our Clients and place at their disposal the splendid equipment of this modern Banking Institution.

A cordial invitation is extended to new friends and full appreciation is expressed for the friendship and patronage of those whom it is now our pleasure to serve.

about 20 acres of the Harrison Farrar farm in Paris, \$302.50.

Virgil E. Dunn to Mary L. Witt, both of Norway; land and buildings in Norway, formerly owned by Sidney A. Stevens on the Waterford stage road, near land of J. L. Partridge, the Isaiah Hall house and the inlet of Pennessewassee Lake.

Alton C. Wheeler of South Paris to B. & W. Realty Co. of South Paris; land and buildings in Paris, Buckfield and Summer on the road leading from Paris Hill to West Sumner, formerly owned by Harrison Farrar.

Eliza M. Waite to Angelia Pensiero both of Mexico; land and buildings on Middle Avenue, Mexico, \$1400.

Adelbert C. Cotes to Peter C. Sharland, both of Peru; the Cotes homestead farm, known as the Old Oliver Hopkins farm in Peru.

Jack Lehto to John Niskonen, both of Greenwood; 60 acres of land in Greenwood formerly owned by Grover C. Yates.

Roy Cordwell of Hebron to Oliver C. Buck of Norway; land and buildings in Hebron, formerly owned by C. H. and A. B. George, extending the lot on which the Hebron Grange Hall now stands.

Esko Niskonen to Antti Parainen, both of Paris; the Ira Murch place in Paris.

The Paris Barrell Co. of Paris to the B. & W. Realty Co. of South Paris; the saw mill property at North Paris on the out lot of Moose Pond, together with the buildings and the machinery, also the lands, dams and rights of fowage, formerly the property of J. Augustus Kenney.

Walter A. Russell of Sumner to Mellen A. Lombard of Hartford; certain lots of land in Hartford, one nearly opposite the blacksmith shop, the other on road running past the residence of B. S. Hammond and W. A. Russell.

Clarence L. Pollard of Waterford to Mattie L. Staples of Oxford; one-eighth interest in the late James B. Pollard's farm in Oxford.

Robinson Arsenault to George H. Johnson, both of Canton; lot of land from the farm known as the Benj. Irish farm in Peru by Worthly.

Mrs. Blanche Yarnawick of Wellesley, Mass., who has been spending her holiday vacation in Fryeburg with her sister, Mrs. Frank W. Thoms, of the Argue Not Inn, has gone to Lowell, Mass.

Everett Mansfield, a member of the senior class of the University of Maine, has been spending his holiday vacation in Fryeburg, where he is the guest of his parents, Mr. and Mrs. Walter Mansfield.

Helen Hodson, who has been spending the Christmas recess in Fryeburg with her parents, Mr. and Mrs. Herbert Hodson, has now returned to North Carver, Mass., where she is teaching.

Mrs. Isidore Perkins has closed her summer home in Fryeburg and has gone to Bryant's Pond, where she will spend the winter months with her only daughter, Mrs. Mabel Rowe.

It is reported that James W. Eastman will soon build a new home on the Eastman lot, on Main street, since he has recently received from his father, Tobias L. Eastman, a gift of the lot of land. The former home was destroyed in Fryeburg's great fire.

Mr. and Mrs. David Bradley acted the part of Santa Claus to the extent that several hearts were made happy Christmas.

Kate Abbott was home over the holidays to assist in moving into their new home on Main street. They have a very pretty home on the lot where their home was burned a few years ago.

Mr. and Mrs. W. B. Barker have both been quite ill during the holidays.

Mrs. Blanche Page, who has been sick, is gaining.

R. S. Howe and young son, William have been on the sick list.

Mrs. Barker has gone to Osgood Pike's for the winter.

Hattie Pike has returned to Boston where she has classes in music and painting.

John Hutchins the post master had a fall on the icy side walk that has caused him much annoyance and trouble, coming at the holiday season when he was so busy.

Clara Page who has been assisting in the post office is through her term.

Lena Johnson was in Portland, Saturday.

Mrs. Geo. O. Warren accompanied her son, Benjamin to Boston, for a visit after the holidays.

Nathan Sanborn of West Baldwin was in town, Saturday. Richard F. Chase of Cornish was also a visitor.

Mrs. Wm. Jackson spent Christmas in Portland.

Owing to the storm, Rev. H. H. Hoyt did not have services, Sunday evening.

Mrs. Alberta Abbott our music teacher spent the holidays with her daughter, Mrs. Ellis Spear in Newton.

Made Irish returned Monday from a visit with relatives in Jefferson, N. H. The electric plant has been badly upset by the ice.

Abbie Smith returned to her school in Waterville, Saturday.

The piano factory is closed ten days for repairs.

Charles Hutchins and family are spending the week with Mrs. Hutchins' parents, Harley Lord and wife.

DENMARK

The church circle had a sale December 22, and an entertainment added to the evening's pleasure. They realized \$22 from the sale. Mrs. Effie Trumbull won an apron of 100 pockets, containing ten cent packages, which went like hot cakes.

The village schools had a Christmas tree on Friday and recitations by the children. A happy evening for the young people.

Llewellyn Fletcher and his wife lately visited at the home of Foster Pingree. They live in Hiram.

Mrs. E. L. Pendexter is on her annual visit to Boston and vicinity, the guest of friends.

Deacon Edwin Pingree has a new Saxophone.

Minnie J. Pingree received odd and useful gifts from California friends. A very pretty gift from Mrs. Frank Buzzell of Oakland, Cal. Mrs. Buzzell makes a New England Kitchen and is very successful. Her mother, Mrs. Harmon, lives with her. They were residents of Fryeburg for many years.

L. Marian Wilson of Northwestern University, Michigan, is at her brother's, E. H. Wilson's, South Portland.

Samuel and Mrs. Colby observed their 50th marriage anniversary on Sunday, December 19. Linen, gold, money, a rug, letters and cards were left by the neighbors.

G. C. Stevens drives around early for the "cream."

Ralph Westworth has been home from the University of Maine.

Willard McKusie is working in A. P. Colby's blacksmith shop.

NEW ENGLAND FERTILIZERS

GOOD VALUES IN 1916

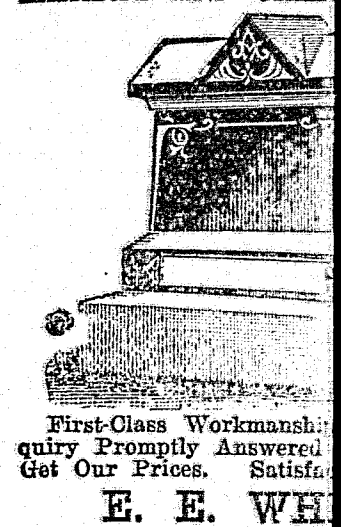

Agricultural products are going to command big prices, and the finest and most attractive products will lead the list.

Crops fertilized with New England Fertilizers will be the best because they will be fed just what they need—natural plant food made out of BONE, BLOOD, MEAT and high-grade chemicals. And these fertilizers will have increased plant-food value at no increase in cost. Our free booklet tells the story. Will you write for it? See our dealer nearest you.

BRIDGTON, MAINE.

THE RICHEST OF

ALL PLANT FOODS

Animal substances are essential to the growth of full, abundant crops. **BONE, BLOOD and MEAT** are animal substances of the most powerful productivity. They are real plant foods, and their action is lasting and effective. **BONE, BLOOD and MEAT Fertilizers**, made by the Lowell Fertilizer Co., are just the brands that can make every crop a profitable one and leave the soil always rich and fertile.

We have a booklet telling how fine crops were grown in 1915 without potash—you will send for it! Also, we have a dealer near you—see him!

strels, Norway Opera House.

ALBANY.

The school teachers of different dis-
tricts and Grangers all joined together
and had a pleasant time, good program
and a Christmas tree well loaded Fri-
day evening.
Gould's Academy scholars, who have
been having a vacation have all gone
back to school again this week.

Guy Cummings has finished cutting the
spruce he took of George Cummings and
is going to work with his brothers, Leslie
and Raymond Cummings, cutting timber
for Charles Becker.

W. I. Becker is hauling dowels for
Charles Becker to Bethel.
Nina Bean, who spent her Christmas
vacation with her parents, Mr. and Mrs.
A. G. Bean, has returned to her school
again in Andover, Mass.

The pulp teams have got on their job
hauling pulp, cord wood and logs to
Bethel and Greenwood brook. There will
be somewhere from 12 to 16 teams when
they all get to work which ought to make
a good road. Will Newcomb is to board
at George Cummings when he gets to
work hauling pulp. John Wheeler has
let his pair of horses to Shirley Hazelton
for the winter to haul timber.

Round Mountain Grange held a pub-
lic installation Saturday. The following
officers were installed by past master,
W. B. ummings:

Master—George Cummings.
Overseer—Augustus Bruce.
Sec.—Allen Cummings.
Treas.—W. B. Cummings.
Steward—Isaac Wardwell.
Asst. Steward—John Haskett.
Gatekeeper—Charles Morse.
Chaplain—Mrs. Augustus Bruce.
Lecher—Alta Cummings.
Lady Asst. Steward—Annie Wardwell.
Ceres—Mrs. Myra Lord.
Flora—Mrs. Isaac Wardwell.
Fronson—Mrs. Robert Stearns.

We understand Mr. Davis of Bethel
who took the job to haul Herbert Bean's
spruce from the mountain to Greenwood
brook three miles this side of Bethel has
decided not to take the job.

D. A. Cummings is advertising his
place for sale. See adv. in another
column.

SUBMERGED IN WATER.

A ward in which the patients sleep on
inflated rubber mattresses half submerged
in tubs filled with warm water is the
latest feature of the famous open air
military hospital.

It was found that many of the patients
arriving at the hospital had such terri-
ble wounds that they were unable to bear
the pain, and as the constant administra-
tion of opiates retarded their progress,
it was decided to provide a bath in which
where the bad cases could spend their
entire time in the water. The water,
which is kept flowing through the tub,
is maintained at a temperature of one
hundred degrees. By a system of slings
the patient lies on a rubber mattress
with his entire body under water only
his head showing above the level of the
bath. A casual observer passing through
the ward would never know the patients
were in a tub. The head is in sight oc-
cupying an oval pillow and the figure
seems to be covered by the conventional
hospital blanket. However, when the flap
is opened the body is seen to be sub-
merged in water, but lying on a rubber
mattress, which is pronounced absolute-
ly comfortable by the patients. One
patient whose thigh had been ripped
away by a shell, has been in a tub con-
tinuously for six weeks. Before he was
placed in the tub he said that he feared
that he was going insane from the pain,
but during his sojourn in the water he
had not felt anything worse than the
usual discomfort from long confinement
in bed.

And still we are a nation of peace-
today.

Baptist Church Notes

A big meeting next Sunday afternoon at
2:15. The Sunday School of C. E. will
conduct. Come and swell the crowd.

WATERFORD.

Creampy Patrons Meeting.

On Thursday, Dec. 30, a large assemblage of the patrons of Waterford Creamery convened at the hall of Bear Mountain Grange in response to the invitation of Mr. W. K. Hamlin, proprietor and manager of the industry which for many years past has been a foremost leader among the enterprises of its kind in our state.

The attendance comprised the proprietors of dairy farm herds residing in Waterford, Norway, Otisfield, Harrison, Bridgton, Sweden, Albany and Stoneham, numbering about 250, including representatives of the families directly interested in the objects of this convention of progressive farmers.

The forenoon exercises consisted of an interesting address by Hon. J. H. Blanchard of Auburn, State Dairy Instructor, on dairying, its future prospects as a source of income, and the value of skimmed milk on the farm.

At the close of Mr. Blanchard's address dinner was announced and the big audience of invited guests proceeded to the spacious banquet hall and partook of the generous collation of stewed oysters and variety of delicious viands provided by their hospitable hosts.

The afternoon exercises opened with a variety of literary recitations given by Mrs. Alice Hamlin, Warren of Portland, followed by an address of welcome and congratulatory by Mr. Hamlin, the patron of the Creamery, on the successful results which have accrued to the past efforts of the patrons to make butter dairying a business of profit to the farmers of this district. The speaker enlarged upon all the various processes of collecting and sampling cream, testing and saving cream in the best condition for the buttermaker. The subject of "pure culture" was explained by Mr. Abbott, the conductor of the creamery.

The Manager proceeded to explain many of the scientific processes involved in the production of the high quality of butter for which the Waterford Creamery is distinguished in New England cities and towns and in sections beyond. The Manager gave an intimate talk on the methods of testing and accounting for cream at the creamery and his address was a general heart-to-heart talk to those most concerned in the genuine success of the mutual efforts of the dairymen of the district for future years.

A revised code of rules for treating milk and cream after separating, and directing the duties of collectors and patrons was adopted by a vote of the meeting, and the fact that the meeting had adopted a code of rules for the quantity of product should be the standard of grade to be always encouraged in every department.

Dr. Leon S. Merrill, Dean of the State College of Agriculture, then gave an address on many interesting matters pertaining to dairying, particularly how to get the highest prices for dairy products.

W. K. Hamlin is erecting a power system for elevating and storing milk in his new ice-house adjacent to the creamery.

Bisbee town.

Mrs. Lena Hill and Dorothy are stopping with her mother, Mrs. M. J. Bisbee, who is not as well of late.

Luella Lord has gone to Norway to work for Lillian Bisbee.

The scholars in this district went to school Monday morning and waited most of the forenoon for the teacher, and as none came went home and got word there would be no school until next Monday.

Ernest McGray has been cutting wood for Fred Haselton and Bert Flint.

Roy Lord breaks the roads through here with two yokes of oxen.

WEST PARIS.

Ricker-Smith.

Walter Eugene Ricker and Cecelia Christine Smith were united in marriage at the home of his parents, Mr. and Mrs. Albert Ricker, Saturday evening, New Year's, at 8:30 o'clock by Rev. C. H. Young. Only the immediate family were present.

The groom is a native of this place, well known and respected. He has been employed in the Paris Manufacturing Co. and has assisted in the telephone office as a substitute. He has many friends who wish him long life and happiness. The bride is native of this place, although her parents came from Denmark. She had a liberal American education and is also master of the Danish language. She has been employed in a shirtwaist factory in Portland.

The bride's dress was an elegant white hand embroidered linen that was a keepsake in her family.

Mr. and Mrs. Ricker left on the Sunday train for Portland and Falmouth where a wedding reception was awaiting them. A large company of young friends gave them a good send-off with rice, etc., at the station.

Rafe Hatt of Tufts College, Medford, Massachusetts, was home through the holiday vacation.

School opened for the winter session this week, Monday. The four teachers are boarding this term at A. K. Emery's and rooming out.

Ruth Tucker went to Boston Monday for a month's vacation.

Mr. and Mrs. Vernal Bates of New Haven, Conn., have been here to visit their parents, Mr. and Mrs. L. C. Bates. Mrs. Bates accompanied them.

Mrs. E. D. Curtis and son Davis are visiting her relatives in Dickvale and Rumford.

Mr. and Mrs. Wilbur Field of Massachusetts have been visiting at J. R. Tucker's.

Quite a number from here attended Pomona Grange at Norway, Tuesday.

Rev. C. H. Young has purchased Henry Brook's buildings at Trap Corner and will open a garage there in the spring. Mr. Young will make some repairs and probably move there afterwards.

NORWAY CENTER.

The Social Club will hold their first social for the season at the vestry, Saturday evening, December 8th.

School commenced Monday after the Christmas recess with Myra Noble as teacher.

J. Merton Wyman is filling some of the ice houses at the lake this week. R. K. Morrill and Oliver Merrill, with R. K. Morrill's teams will go to Rumford the last of the week where they have work hauling pulp wood.

The Circle which was held December 29th, was well attended. A fine dinner was served to which all did full justice and the usual good time reported. Plans were made to meet again in three weeks.

The four act drama "Down in Maine" will be presented at the town hall, East Stoneham, Thursday evening, January 13th.

PREPARING FOR EXHIBITION

Preparing Show Birds—Good Physical Condition, Handsome Plumage and Careful Grooming Essential.

Every fowl, whether young or mature should be in first-class show condition when it enters the exhibition hall. The plumage should be the standard length for the breed, lustrous and plentiful, the head bright red in color, and the comb developed to the required size. The specimen should appear in handsome dress, good physical condition, and trained to exhibit his good qualities to advantage.

Careful training imparts to a bird sufficient confidence to assume the hold desired poses under show-room conditions. If possible, obtain exhibition coops similar to those used at the show you will attend. Cover the floor with short straw or a mixture of bran and straw for feathered-leg breeds. Two months before the show place the birds you intend to exhibit in the coops at night. Visit the coops as frequently as you can and handle the birds often. Carry them around under the arm, open their wings and examine the undercolor and accustom them to every movement of the judge. It is not advisable or necessary to keep the show birds confined in the training coops. A day at a time is sufficient. Then, allow them the run of the house for two or three days and outdoor exercise if seasonable.

It is necessary to examine show birds carefully at least 10 weeks before the show. Remove all imperfect feathers, in the hope that they will be replaced by feathers of standard color. Frequently colored feathers showing a little white along the edge of the web will not out perfectly when the fowl is well fed on sour-milk mash, meat and grain. Never pluck a new feather—one in which the quill is filled with fluid—as it will invariably turn partially white. A few days before the exhibition examine your birds again and pluck the imperfect feathers. It is quite a problem to determine the best procedure when there is foreign color in some of the large feathers of the wings or tail. If the color is a cause for disqualification, there is no justification for shipping the bird to the show. What is best to do will depend upon the quality of the specimen in other sections and upon the amount of defective color in the wings. Usually these defects occur in similar feathers in both wings.

All white fowls must be washed, and most fowls or other colors can be improved in appearance by washing, fluffing and grooming before the show. For white birds have three tubs filled with (1) warm, soft or rain water; (2) warm soft or rain water; (3) warm, soft or rain water colored the proper shade to rinse and blue white goods. Use a bar of good white or castile soap and a sponge and a nail brush. Have the temperature of the room 80 or 85 per cent. and bring the birds in clean exhibition coops, the floor of which should be covered with fresh, dry shavings and soap, and thoroughly wash the shanks and feet with the nail brush, soap and water. Insert the bird in tub (1) and push it down under the water several times until the plumage is wet spongy; make a heavy lather with the sponge and soap, and thoroughly wash the feathers. (In fact, always wash the length of the feather, from the quill to the tip and not across it.) Keep the bird's head out of the soapy water if possible; sponge the soap off the bird, and remove to tub (2). Press it under the water several times, allow it to stand and drip for a few seconds, and then dip it twice in tub (3) containing the bluing water. Remove the bird from the water, hold its legs firmly and raise it up and down quickly, so that it may flap and expand its wings and tail and shake out the water. Do not use a towel to dry a white bird.

Move the exhibition coop near the fire or some heat, so that the bird will dry. Lifting up the plumage on the breast and opening the feathers of the fluff while drying has a tendency to increase the apparent size of these sections. It is necessary to examine the white birds frequently if the coops are near a stove to guard against overheating them or scorching or curling their feathers.

The shanks and feet of exhibition fowls must be absolutely clean and well polished. To overspread the scales rub the legs twice daily with a cloth dipped in kerosene, and a short time before the show wash them thoroughly. Use a good scouring soap, woolen cloth, and warm, rain water. Remove any old or rough scales and also the dirt between the scales. The latter can be taken out with toothpicks. Dry the shanks and apply a solution of equal parts of sweet oil and alcohol. Then warm a woolen cloth and scrape a little beeswax on it. The warmth will melt the wax, and the shanks should then be polished with the waxed cloth.

Before shipping the birds to the exhibition apply the sweet oil and alcohol solution to the face and comb. If you are showing white birds fill their plumage, after washing and when thoroughly dry, with equal parts of bran and rice flour. Some exhibitors use cornstarch, which is equally satisfactory. This prevents the plumage becoming soiled, and when the starch is shaken out at the show and the fowls are groomed they apparently take a higher polish. However the coops must have wooden or muslin tops and sides to prevent rain coming in contact with the starched plumage. The final grooming is accomplished with a silk handkerchief, rubbing, and polishing the feathers until the plumage has a high luster.

NORTHWEST NORWAY.

Ruth and Lois Marston from Norway Lake visited at their grandfather's, Geo. Abbott's, Saturday afternoon and Sunday.

Madred French, who has been working in the Norway shoe shop, has returned home to Silver Crest Fruit Farm.

Leslie Flint and C. G. French have harvested their ice. Ellsworth Farmum cut it for them.

Mr. and Mrs. E. O. French, Mr. and Mrs. Fred Pierce, Mr. and Mrs. C. G. French and Mr. and Mrs. Charlie Dunn attended the dedication of the Mother's Club hall at Norway Lake last Thursday.

A goodly number of the Grangers of this neighborhood attended the Pomona at Norway village, Tuesday.

Ed. Morse and Eldridge Holt are gaining.

SOUTH OTISFIELD.

Mabel Tenney had twenty Christmas presents presented her.

Hubert Noble and wife of Harrison, came through this place, Wednesday.

Hubert Kimball spent Sunday with his sister, Mrs. Hazel Winslow.

Mrs. A. S. Ames and granddaughter, Mabel, spent Tuesday with Mrs. Walter Jordan.

LETTER REGARDING RAISING APPLIES IN NEW HAMPSHIRE IS APPLICABLE IN MAINE.

FROM THE FRANKLIN, N. H., JOURNAL-TRANSCRIPT

The Rambler is the editor of the Franklin paper and writes entertainingly on most any subject that comes to his attention and here is one of them that applies to this section of the world.

The Rambler is very well pleased with the communication in this column this week from one who knows from practical experience what he is writing about. The sample of apples sent by Mr. Bean consists of a half bushel, more or less, of as nice apples as ever grew. Good size, perfect in form, free from worms, they are apples that would bring a high price in any large city. The assortment is fine, the names being given in Mr. Bean's letter.

Of course in a small way the Rambler knows what he is writing about when he writes of fruit, or of farming in general. Brought up on a farm and living there until he was twenty he had opportunity to get practical knowledge of many of the important questions confronting the farmer. Since leaving the home farm he has had an interest in one or more farms about all of the time, has talked with farmers who are successful as well as with those who are finding it hard to get a living off the land, and has read what others have to say about fruit, sheep, cattle and other farm interests. Therefore he does not feel that he is giving worthless advice when he writes to his farmer friends. But when they write him he knows that he is getting facts, and he hopes every farmer who sees the J-T this week will read carefully the following article.

Commit it to memory, or if you cannot do that, cut it out and keep where you can read it again in the spring.

My dear Mr. Rambler:—

As I am very much interested in fruit culture, especially apples, I read with great pleasure your articles in this column pertaining to this subject. I am taking the pleasure of sending you a few apples grown by me on our small fruit farm—McIntosh Reds, Baldwins, Northern Spies, Yellow Bellfowers, Fallaways, and many others, of the 27 different varieties I grow. Will you please let me know how they are liked?

One should grow nearly as many varieties for a commercial success. As my work each fall has been packing apples for E. N. Sawyer, and as my part of the pack probably over 20,000 barrels during the past six or seven years, I hope I will be pardoned if I presume to know good quality apples.

In your judgment, the fruit sent you by me, please, on my part, it will give me pleasure to write a few lines relative to the methods which I employ. And possible the man who "produces the goods" by experience may have a reasonable right to his own opinions.

In the first place, if any one thinks he is going to raise good fruit without considerable labor, both mental and physical, he is much mistaken, because it requires considerable of both. But any one with average ability, and reasonable conditions as to tree and location, may raise good fruit. Will write this article as to care of old or neglected trees.

To start new life and wood, first plow and harrow around trees, using a good coat of manure. It isn't necessary to get close up to the body of tree, but as close as convenient without breaking branches. This cuts off some surplus roots, and helps start new wood, both in tree and roots.

Now comes the pruning. This pruning should be done when trees are practically dormant. An especially good time to prune trees infected with canker is just after fruit is gathered, as then the leaves are on and you will be sure and not miss taking out infected tops, which, in some cases, would not attract attention except by the lack of foliage. Take out all dead wood; then cross and crowding limbs should be thinned out, keeping an eye at all times for the future shape of your tree.

Try and keep the top of your tree down and partially open to sun as very tall trees are a menace to aerial navigation, and decrease the profits from 10 to 20 cents per barrel in picking and if one falls (an apple, not a man), it is spoiled. A broad, spreading tree is far more easily picked, at much less cost, and if an apple drops and if there be much or vegetation of some kind under tree, as there should be, the apple is seldom damaged. This makes a very large item of difference in the revenue of some of our orchards, especially when we have heavy winds; this fall for instance.

Scrape off the old, dead bark, as this is the home of lice, scale, etc. When pruning, especially if there be canker, get a few tablets of corrosive sublimate, dissolve one tablet in pint of water, put some in glass bottle, tie a small sponge to string, attach to neck of bottle, sponge cut thoroughly, as this kills canker germs; sponge all cuts as many opinions as to the best material

Scrape off the old, dead bark, as this is the home of lice, scale, etc. When pruning, especially if there be canker, get a few tablets of corrosive sublimate, dissolve one tablet in pint of water, put some in glass bottle, tie a small sponge to string, attach to neck of bottle, sponge cut thoroughly, as this kills canker germs; sponge all cuts as many opinions as to the best material

down and partially open to sun as very tall trees are a menace to aerial navigation, and decrease the profits from 10 to 20 cents per barrel in picking and if one falls (an apple, not a man), it is spoiled. A broad, spreading tree is far more easily picked, at much less cost, and if an apple drops and if there be much or vegetation of some kind under tree, as there should be, the apple is seldom damaged. This makes a very large item of difference in the revenue of some of our orchards, especially when we have heavy winds; this fall for instance.

Saves Boy From Grave

Mrs. Jennie Bowen of Meredith, N. H., writes this kind of letter: "You have helped my little boy. He would have been in his grave before long."

Some symptoms of worms are: Deranged stomach, swollen upper lip, sour stomach, offensive breath, hard and full belly with occasional grinnings and pains about the navel, pale face of leaden tint, eyes heavy and dull, twitching eyelids, itching of the nose, itching of the rectum, short dry cough, grinding of the teeth, little red points sticking out on the tongue, starting during sleep, slow fever. If you have the least suspicion that your child is troubled with stomach worms, or pinworms, put him on the road to good health by using Dr. Truett's Family Laxative and Worm Expeller. This remedy has been on the market for over 25 years. Good for adults also. At all dealers, 50c. and \$1.00. Advt. free.

Auburn, Maine. 1.11 Dr. Truett

to cover cuts; lead and oil paint and coal tar preparations are mostly used, as they are generally the most convenient. But a friend of mine, a close observer by the way, while on the island of Trinidad, noticed at the Botanical Gardens that they used asphaltum from "Pitch Lake" on their cuttings. He tells me that for cuts, wounds, cavities, etc., on trees, asphaltum reduced to a workable consistency with creosote, makes the best and most lasting of all preparations.

Now pick up and burn all brush, as canker germs will spread from brush as well as from trees.

In the spring, as soon as the buds are spreading, comes the "dormant" spray. I use five gallons lime-sulphur solution to 45 of water and add two or three pounds of arsenate of lead. At this time there may be, and usually is, some tent caterpillars out and forming their tents. The arsenate of lead is this mixture is principally for their benefit. It acts as a "tonic" for them when they eat the tips of the young buds. Spray thoroughly all over on all sides.

The next spray, and most important one of all, comes as soon as most of the blossoms have fallen; this is primarily for the codling moth. In this I use five pounds of arsenate of lead, two gallons lime-sulphur solution to 45 of water, the lime-sulphur to control scale always present at this time, especially on peach is very important, which were not reached by first spray. Spray thoroughly, both top and under sides of leaves until tree "drips."

I think we shall have to spray again next season with the arsenate of lead for the benefit of the gray moth. It looks as though this pest will keep us busy if we wish to save our trees. In our locality the nests are far more numerous than ever before.

For the first year or so it would be advisable to keep some growing crop thus being obliged to keep ground well worked. Then mulch with something, or sow some cover crop and turn under each season. Be generous with manure, fertilizer and wood ashes. Don't expect something from nothing especially from your apple trees nowadays.

Follow this up—good pruning, good and plenty of spraying, ground well cared for, and you will have good fruit. If you do not, you may as well commence at the butt of the tree with a crosscut saw.

If some people call The Rambler a crank on this subject, I, for one, hope he will continue to be one, and sincerely hope many will put to practical use his "cranky" notions and suggestions as to the care of apple trees, and fruit trees in general, as we are told by people who should know that there is no better apple land in the world than right here in

OUR ANNUAL Mid-Winter Clearance and Stock Reduction Sale Will Begin on Saturday, Jan. 8

THE CUSTOM of holding this genuine Clearance Sale in January was established from our beginning and its importance to the public has become as well known and well understood as this store itself. It is only necessary to know the date upon which it will begin.

FOR THE BENEFIT of all who do not fully understand the plan upon which it is conducted and the importance that is attached to it we would say that besides the fall and winter merchandise every department is contributing its share in this bargain movement. Even the merchandise that is scarce and difficult to obtain will be found in this sale at reduced prices.

Read this ad., check off your list and be here when the store opens. You'll be well paid.

HUCK AND DAMASK TOWELS. Special values in different qualities offered during sale.

KEZAR FALLS.

Roswell Sawyer. On the evening of the first day of the new year, Roswell Sawyer at the age of fifty-five years passed away after a two weeks' sickness with pneumonia. Mr. Sawyer was an esteemed citizen and will be greatly missed. He leaves a wife, two daughters and four sons, beside a number of sisters and brothers. Funeral services were held on the afternoon of January 4th, conducted by Rev. Cymbrid Hughes.

Go to church Sunday was hardly a success, owing to the severe storm. As it was there was an attendance of twenty-two persons which was not bad considering the inclemency of the weather and the condition of the highway.

A better sanitary system has been installed in the schoolhouse on the Parsonsfield side of the river, and the old iron stoves with their intermittent heat and cold have given place to a furnace and hot air registers. There is no royal road to learning, but the way has been made much easier than in days gone by.

SOUTH HIRAM.

Annetta Aarlin of Farnworth, N. H., is the guest of Mr. and Mrs. James Wiggin.

Olaf Mason, who has been the guest of Mr. and Mrs. Jesse Gilpatrick, returned to his home in Conway, N. H., Wednesday.

Mrs. Gladys Thomes and two daughters Velma and Edith are the guests of her parents for a few days.

Mr. and Mrs. Silas McDaniel, Mrs. Carl Bemis and daughter, Rita called on Bertha Durgin, Wednesday afternoon.

Mr. and Mrs. Frank Jewell were the guests of Mr. and Mrs. Arthur Wiggin, Friday evening.

Ruth Wardworth, who has been spending a few days with her niece, Mrs. Ina Atherton in Portland, returned home, Wednesday.

Mrs. Lulu Crabtree was the guest of Mrs. Abbie Stanley, Friday afternoon and evening. Mrs. Mabel Wiggin spent Thursday afternoon with Bertha Durgin.

At the box supper which was held at the new schoolhouse, Tuesday evening by Mrs. Grace Smith, \$9.65 was cleared free of all expenses and \$5.00 was taken.

Mr. and Mrs. Hartley Pendexter spent Sunday with her parents, Mr. and Mrs. J. F. Spring.

Phil Durgin went to Hiram Monday to work for Scribner Bros. He came home from Lovell, Saturday night.

Mr. and Mrs. Frank Jewell spent Thursday evening with Mr. Arthur Smith and family.

Mrs. Mabel Stanley, who has been spending a week with Mrs. Abbie Stanley, returned to her school duties, Saturday at New Castle, N. H.

Mrs. Josie Spring is taking care of Mrs. Ethel Libby in Parsonsfield, who is on the sick list.

HARBOR.

Rev. D. Pettigall and wife have moved here from Frye and will occupy the Blake house. He preached here formerly and their friends are glad to see them back.

Mr. and Mrs. Erlon Bennett and Urban Hall have gone to Slab City, Lovell. The men will work for W. Fox with their teams.

Archibald Hurd was in Fryeburg village over Sunday.

Mr. and Mrs. Herbert Hurd entertained Mr. and Mrs. Pettigall while they waited for their goods.

Mrs. A. W. McKen was at C. W. Farrington's sewing the past week.

Several are getting their ice houses filled this week.

Quite a number here attended the minstrel show at North Fryeburg.

In spite of the storm Sunday morning a good number attended church.

Leon Charles will go to Lovell logging and will board at Benjamin Russell's.

NORTH WOODSTOCK

Clarence Farnum was in Buckfield on business, recently.

Roy Buck of Buckfield, is moving onto the Harding place. He will work for Potter Davis this winter.

Mr. and Mrs. Merlin Joy of South Paris were in town this week.

Mrs. J. H. Ackley has returned home. The remains of George York of South Paris were brought to Bryant's Pond for interment, Friday.

Mrs. Ruth Bryant and daughter attended Grange at Bryant's Pond, Saturday.

Mrs. Susan Cole and little daughter, Norma, are guests of her sister, Mrs. Geo. Jordan the present week.

Alton Clifford visited his uncle, A. C. Jackson, over Sunday.

Ismay Jackson was unable to attend school part of last week on account of having a bad cold.

Chas. Crockett has moved his family into the J. W. Richardson house.

Hattie Flint, who has been visiting her mother for some time, has gone back to Lovell to work.

Mrs. Joe Stevens of Lovell is visiting her mother, Mrs. Henry Billings.

The young people of the village made up their minds that they would not take a treat from the young married couple so they got out their trumpets, tin pans and every nameable thing that would make a noise and started out about nine o'clock, Wednesday night. After making music for an hour and not seeing bride or groom they made up their minds that the young people were gone and they had been serenading the old folks so putting up their instruments they went home but vowed they would go again when they knew the young folks were there.

We are glad to know that A. C. Jackson is at last on the gain.

We understand that Duke Thompson, who has been going to school at Hebron, has given up his school and is going to help his father on the farm.

WEBB'S MILLS.

Ralph Berry has moved into the house recently vacated by Joseph Strout.

Charles H. Thurlow has moved his family into the John Small rent while he is cutting timber for Milton Hancock.

Charles Brawn of Shadisco is quite sick.

Mrs. Hall Edwards is caring for Mrs. Warren Renny.

Mr. and Mrs. Strout of Otisfield are stopping for the present with their daughter, Mrs. Thurlow.

Mrs. Jennie Schellinger has returned to this place and bought the Ransom Jordan house.

Mr. and Mrs. Charles Coffin will live with her grandmother, Mrs. Schellinger, during the winter and Mr. Coffin will work for John Symonds.

Mr. and Mrs. Della Edwards are stopping with her parents, Mr. and Mrs. Lawrence Winslow for the present.

H. C. McAllister is hauling timber to John Symonds' mill for Milton Hancock.

Otis Smith has quite a lot of work at his new blacksmith shop.

Let nothing keep you away from this unusual money saving event. Many unadvertised Bargains equally as good as the advertised ones.
